The City of Tartu
has the pleasure to invite you to a

business seminar
**Digital nation. Personalized
solutions for healthcare & wellbeing**

on January 31, 2022 at 12:30 p.m. to 5:30 p.m.

e-Estonia Pavilion
MR-01 EXPO 2020

RSVP by January 24
[Registration link](#)

Meet the future of health and care in the Estonian pavilion!

Estonia is the #1 in Europe in the number of unicorns per capita. We do not only talk about a digital society — we live it. Innovative e-solutions are the core of the Estonian healthcare system as 95% of every Estonian's health data is digitized. Valuing both digital and clinical in the health care system position Estonia in the forefront of implementing personalized risk profiling, diagnostics, and remote treatment possibilities.

You are welcome to meet a great panel of companies representing innovative solutions from personalized genetics and biomarker based disease risk assessment and diagnostics to digitalized diagnostic support systems and digital therapeutics.

- 12:30 Check-in, coffee & snacks, networking
- 13:00 Welcoming Address and Vision Speech
- 13:30 Panel discussion by Artegenes. Real-life innovations for personalized cancer prevention. How to implement innovative genetic information in precision cancer prevention.
- 14:45 Panel discussion. The future is now. Digital health solutions bring more care into healthcare.
- 15:45 Panel discussion: Changes and challenges in the molecular diagnostics
- 16:30 Cocktails and networking

You are welcome to select any panel you are interested in. Sign up even if you can't join the live event, but you're interested in follow-up information.

Business seminar is organized by the City of Tartu and Artegenes, official partners of Estonian EXPO 2020 Pavilion.
